Comments and Suggestions for Editor (will not be revealed to authors)

	Yes	Can be improved	Must be improved	Not applicable
Does the introduction provide sufficient background and include all relevant references?				
Is the research design appropriate?				
Are the methods adequately described?				
Are the results clearly presented?				
Are the conclusions supported by the results?				

Comments and Suggestions for Authors

	Yes	No
Do you have any potential conflict of interest with regards to this paper?		
Did you detect plagiarism?		
Do you have any other ethical concerns about this study?		

Overall Recommendation	
Accept in present form	
Accept after minor revision (corrections to minor methodological errors and text editing)	
Reconsider after major revision (control missing in some experiments)	
Reject (article has serious flaws, additional experiments needed, research not conducted correctly)
